## SUMMARY

---

Results-driven Full Stack Developer with freelance experience building modern web applications using Next.js, React, TailwindCSS, MongoDB, and PostgreSQL. Proven expertise in creating scalable, high-performance applications demonstrated through a portfolio of complex projects and a 5-star client rating. A dedicated and proactive learner, currently advancing skills in Agentic AI Development.

## SKILLS

---

**Languages** - Python, TypeScript and JavaScript

**Frontend** - Next.js, React, TailwindCSS, ShadCN, GSAP, Framer Motion

**Backend & Database** - FastAPI, Express.js, Node.js, Next.js(API Routes), PostgreSQL, NeonDB, Supabase, Prisma, Drizzle ORM

**AI & Tools & Platforms** - OpenAI Agents SDK, Vercel AI SDK, Gemini, n8n, Git, Github, Postman, Vscode, Cursor

**Deployment** - Vercel, Netlify

**Soft Skills** - Adaptability, Teamwork, Leadership, Problem-Solving

## PROJECTS

---

**LegalizeAI** - ( Next.js, TypeScript, TailwindCSS, NextAuth, MongoDB, OpenAI Agents SDK, ShadCN, Framer Motion, RestAPI )

- Helps users understand complex legal documents by summarizing and identifying risky clauses in simple, easy language.
- Solves the problem of confusing legal terms and saves time for people who aren't familiar with law.
- I created it to make legal understanding accessible and easier for everyone.
- [Github Repo](#) | [Live Demo](#)

**Shop.CO** - ( Next.js, TypeScript, TailwindCSS, Clerk, Stripe, Sanity CMS, Shippo API, ShadCN, Framer Motion, RestAPI )

- A full-stack e-commerce platform with authentication, product search, filters, cart, and secure checkout using test payments.

- Guest users can browse products but can't add items to the cart; admins can manage products and orders through a dedicated dashboard.
- Includes responsive UI, smooth animations, and complete admin tools for handling orders and products efficiently.
- [Github Repo](#) | [Live Demo](#)

### **MetaBlogs- ( Next.js, TailwindCSS, NextAuth, MongoDB/Mongoose, TypeScript, ShadCN, Framer Motion, RestAPI )**

- A full-stack blog application where users can sign up, create, edit, and delete blog posts, as well as like, comment, and follow other users.
- Includes profile customization, post filtering, and an explore section for discovering blogs easily.
- Designed from Figma with a fully responsive, animated, and smooth user experience across all devices.
- [Github Repo](#) | [Live Demo](#)

## **WORK EXPERIENCE**

---

### **Freelance Full Stack Developer | Fiverr/Upwork**

- Successfully designed, developed, and deployed a full-stack web application for an international client, achieving a perfect 5-star review.
- Utilized a modern tech stack including Next.js, TypeScript, TailwindCSS, MongoDB, Vercel to meet client specifications.
- Managed the project independently, from initial client consultation to final delivery, ensuring clear communication and adherence to deadlines.

### **Open Source Contributor | [Github](#) | Various Organizations**

- Actively contributed to multiple open-source projects across various organizations.
- Enhanced features, resolved bugs, and improved documentations.
- Collaborated globally via Git and pull requests to learn best practices.

## **EDUCATION**

---

**Govt. Jinnah College, Karachi, Pakistan**  
Present

jun 2024 -

- Intermediate in Computer Science (HSC Part-II)

Governor House IT Initiative, Karachi, Pakistan  
Present
